

# Vote August 2<sup>nd</sup> Republican Primary

## What is the State Central Committee?

- 66 people elected to represent Republican voters.
  - One woman and one man from each of Ohio's 33 Senate Districts
- Responsible for defining the core principles of the Ohio Republican Party.
- Identify the main objectives for the party and recruit new candidates.
- Endorse and fund Republican Candidates.

## Why is State Central Committee Important?

- To grow the party we need clear principles and objectives.
  - People want to know that the GOP is aligned with their goals and priorities.
- A successful business needs a good Board of Directors focused on the demands of their customers (voters).
- Money needs to be allocated to achievable priorities.
  - Unfortunately only incumbents are considered.
  - New conservative candidates are ignored.
  - Judicial and local races are neglected in favor of a small group of state offices.

In the state of Ohio we are suffering small business erosion, attacks on medical freedom and indoctrination of school children not as a result of the Democrats but because of the Republicans that control the entire state level political landscape. Career politicians and a feckless Ohio Republican Party are hurting Ohio's citizens. George is running for the Ohio State Central Committee to bring transparency and accountability to the Ohio Republican Party.

**George Brunemann**  
for State Central Committee 8th District  
**PRINCIPLED REPUBLICAN**  
Let's make the Ohio Republican Party represent the voters!

America is hurting because the Republican party has let us down. Here in Ohio, the Republican Party's State Central Committee is the heart of the party - it sets policy and promotes candidates that will push the Republican brand to the voting public. However, the central committee needs people who will stand for freedom in all its forms: financial accountability most of all, preserving and advancing conservative principles for the future.
